How to Plan a Fireplace - Project Worksheet

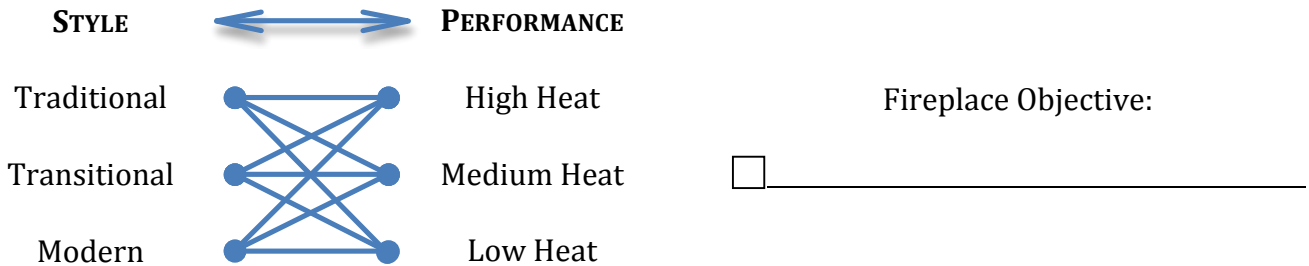

Planning a fireplace project can be a simple process if broken down into five component parts or sections. While the order of consideration may vary, this is a popular path to follow:

- I. Fireplace Objective
- II. Fireplace Fuel
- III. Fireplace Location Considerations
- IV. Fireplace Design Elements
- V. Fireplace Project Management / Execution

Section I. – Fireplace Objective.

Why a fireplace? Whether it is referred to as the centerpiece of the room or the heart of your home, a fireplace adds warmth and style to any room. Consider the importance of *style* versus *performance* and how the two blend with each other in your project.

For example, your Fireplace Purpose may be a TRADITIONAL MEDIUM HEAT FIREPLACE or a MODERN HIGH HEAT FIREPLACE.

Section II. – Fireplace Fuel

What kind of fuel will the fireplace use? Your selection here will be based on availability, cost, and personal convenience.

- Natural Gas
 Liquid Propane
 Wood
 Pellet/Corn
 Electric

Section III. – Fireplace Location Considerations.

Where will the fireplace be located? If you have more than one option, check all that apply so we can discuss the possibilities with you. Some restrictions exist based on installation standards and requirements; we will explain this as we work through the planning process with you.

- Fireplace Location:
- | | |
|----------------------------------------------------------------------------------------------------|----------------------------------------------|
| <input type="checkbox"/> Exterior Wall | <input type="checkbox"/> Interior Wall |
| <input type="checkbox"/> Flat on the Wall | <input type="checkbox"/> Corner Installation |
| <input type="checkbox"/> Main Level | <input type="checkbox"/> Lower Level |
| <input type="checkbox"/> (Check here if you checked Main Level, and there is a second floor above) | |

Other Considerations:

Project Name: _____
 Address: _____
 Phone: _____
 E-Mail: _____

Section IV. – Fireplace Design Elements

Materials and features make up the “wall” of the fireplace. Mixing the use of materials will add interest and character to the design. For example, Stonework around a fireplace may be balanced with a Wood Hearth and a Wood Mantle. Check all design elements that you are considering...

- Fireplace Design Materials: Stone Tile Granite/Marble Cast Stone
 Metal Wood Painted Drywall Details
 Glass Other _____

- Fireplace Design Features: Hearth (Below Fireplace) Mantle (Above Fireplace)
 TV Niche or Pocket Framing Cabinets or Shelving
 Lighting Features Other _____

Section V. – Fireplace Project Management / Execution

Bringing it all together is the job of the great project manager. Our Fireplace Professionals are skilled and experienced in complete coordination of the job, and we specialize in providing turnkey projects to our clients. Working with Energy Products & Design will give you the peace of mind that all of the details are planned and considered. If you are considering a do-it-yourself project we have provided a checklist of trades and specialties that need to be considered:

F.P. Project Manager

- Energy Products & Design Self Managed

F.P. Project Elements

- | | | | |
|-------------------------------------------------|---------------------------------------------|-----------------------------------------------|-------------------------------------------|
| <input type="checkbox"/> Fireplace Installation | <input type="checkbox"/> Framing | <input type="checkbox"/> Chimney Installation | <input type="checkbox"/> Insulating |
| <input type="checkbox"/> Sheet rocking / Taping | <input type="checkbox"/> Painting | <input type="checkbox"/> Woodworking | <input type="checkbox"/> Wood Finishing |
| <input type="checkbox"/> Granite Fabrication | <input type="checkbox"/> Stone Installation | <input type="checkbox"/> Metal Working | <input type="checkbox"/> Fireplace Set-up |
| <input type="checkbox"/> Gas Line | <input type="checkbox"/> Electrical | <input type="checkbox"/> Permits/Inspections | <input type="checkbox"/> Other _____ |

F.P. Project Sub-contractors / Professionals

- | | | |
|--------------------------------------------------|----------------------------------------------------|-----------------------------------------------|
| <input type="checkbox"/> Licensed F.P. Installer | <input type="checkbox"/> Licensed Plumber | <input type="checkbox"/> Licensed Electrician |
| <input type="checkbox"/> Carpenter | <input type="checkbox"/> Sheet-rocker | <input type="checkbox"/> Painter |
| <input type="checkbox"/> Cabinet Maker | <input type="checkbox"/> Stone Mason | <input type="checkbox"/> Tile Setter |
| <input type="checkbox"/> Roofer | <input type="checkbox"/> Building Safety Officials | <input type="checkbox"/> Other _____ |
